PROFILE

I am a motivated and skilled software engineer with a degree specialized in Information Technology. I have practical experience gained through an internship and nearly one year of employment at Parcel International, where I contributed to the development of software solutions in a dynamic international environment. My expertise lies in web development, Software Development, database management etc. I am now seeking new opportunities to further enhance my skills and contribute to innovative projects as a software engineer.

WORK EXPERIENCE

Software Engineer - Full Time (Remote) - 1Y

Parcel International. Rotterdam, Netherlands   **2023 - 2024**

- Technology Stack: Utilizing ASP.NET MVC, AngularJS, JavaScript, ASP.NET Web API, Entity Framework, SignalR, and ASP.NET Core Identity to create a robust and secure Shipping system.
- Architecture: Clean Architecture, Microservice, CORS and SOLID principles to ensure scalability, maintainability. And separation of concerns.
- Localization: Utilizing database localization for dynamic language updates via the user interfaces.
- UX/UI: Interface designing for mobile applications by using Figma designing tool.
- We mainly provide development services for MySendle and Parcel International Carrier Services which are major Transport Systems in Netherlands.

Intern Software Engineer - Hybrid - 6M

VizuaMatix. Rajagiriya, Sri Lanka   **2022 - 2023**

- Hutch Junior Internet Guard which is a mobile application to manage internet to provide a better and safe digital environment for kids. : Elixir, Phoenix, Tailwind CSS, Sprint Boot, Java. I could able to increase the UI rendering performance of the application from 60% to 80% by using Elixir FP and Phoenix framework.
- A system for Sri Lanka Tourism Development Authority (SLTDA : NDS): Python, FastAPI, SQL.
- Completed a training program on Vue.JS, Java Spring boot based on Linux environment.

Web Developer / Designer - Part Time - 1Y

iTerminal Technology, Baththaramulla, Sri Lanka   **2022 - 2023**

- Learning Management System for ASEAN.org (The Association of Southeast Asian Nations) Front-end of web application : HTML, CSS, JS, C#, .NET.
- Project Management System for Ministry of Finance, Sri Lanka - WIP UI/UX design for the web application : Figma Software
